

Nan Holloway

Director of Client Partnerships for Cyber Defense Labs

Nan Holloway leads Cyber Defense Labs' efforts in building trusted client partnerships. She fosters a business landscape that thrives on synergy between innovation, security, and customer-centricity. She helps organizations adapt to evolving cyber threats and leverage cutting-edge cybersecurity services to reduce business risk and reputational damage. She has a deep understanding of the cybersecurity landscape. With a career spanning multiple industries, Nan brings a unique blend of trust, skills, and insights to the forefront as she works with our client partners.

Nan joined Cyber Defense Labs with a seasoned background in the cybersecurity and IT sector. During her tenure with Future Com, Mandiant, and Alias, she utilized her diverse experience to impact the clients she represented positively. Her ability to bridge the technical complexities of cybersecurity solutions with client needs translated into a successful track record of driving revenue and strengthening organizations' defenses against cyber threats.

Before IT and cybersecurity, Nan followed her entrepreneurial spirit and founded a handbag company. As the inventor of an innovative and patented product, she led the company from its inception, navigating challenges, including working with international companies, and achieving notable milestones and sales with her product being sold at national department stores and online shopping channels.

Before owning her own company, Nan began her career in the pharmaceutical Industry with Novartis. Her keen understanding of the healthcare landscape and her talent for building relationships led to significant revenue gains and lasting partnerships with healthcare providers.

Nan earned her Bachelor of Arts with a double major in Communications and Spanish from the University of Minnesota, Duluth.
