

Marc Uydess

Senior Director of Advanced for Cyber Defense Labs

Marc Uydess is Senior Director of Advanced Services for Cyber Defense Labs. Uydess leads Cyber Defense Labs' Penetration, IT, and Engineering teams. In this role, Marc works directly with client partners ensuring excellence in delivering our services across diverse business landscapes.

Prior to Cyber Defense Labs, Marc worked for Comcast Corporation, a multinational telecommunications conglomerate headquartered in Philadelphia. While at Comcast, he led a complicated effort to upgrade existing security information and event management technologies, establishing new policies and procedures set as a model for future integrations of new technologies. Marc also served as a member of the Comcast security incident response team.

Marc began his career as an analyst for Bristol-Myers Squibb. He also held high-level analyst positions at Ballard, Spahr, Andrews, and Ingersoll, a Philadelphia-based law firm, and Nine West Holdings, an American marketer and wholesaler of branded clothing, formerly known as Jones Apparel Group.

Uydess brings vast experience in cyber and information technology (IT) to Cyber Defense Labs which includes helpdesk support, system administration, complex system integrations, and incident response.

Uydess is a graduate of Drexel University and holds a bachelor's degree in computing and security technology.
